Description

Feel your cares slip away as you wind your way through the trees driving down the long private driveway. A rare low-maintenance 10-acre find so close to the city! Shaded park-like yard with endless space for adventure and wonder. Watch the trees and nature come to life in the spring with the beauty of Rivendel while wandering or riding through extensive gorgeous trails and listening to birds sing; Enjoy summer days on a private patio surrounded by emerald green shade trees; Bring your senses to life as fall foliage reveals the scent of autumn and shades of red, orange, and gold surround you and watch children play in the leaves. If it happens to snow, you'll be transported to the winter wonderland of Arendelle as the trees glint like diamonds and you sled down the perfect hill found under the power lines (where nothing can be built!) Invite over your largest circle of friends for movie or game night in the large basement theatre room. Have your own private camp-outs down by the winding enchanted stream.
